### SUMMARY

---

I am a software engineer with a love for all things technology and a passion for serving others. I desire to help cultivate a company culture that values employee fulfillment, satisfaction, and overall well-being while utilizing the benefits of technology. I thrive best in an atmosphere compiled of creative team members, and will contribute a passion for innovation and an empathetic demeanor. My goal is to utilize technology in order to advance humanity toward a more balanced and productive society.

### SKILLS

---

**Front-end** // Javascript, React, HTML, CSS, Sass

**Back-end** // MongoDB, Node, Express, Ruby, Rails, Postgres, SQL

### PROJECTS

---

**Wine Pairing** // [View Project](#) - [View Code](#)

- Utilized an API to auto-populate a wine-pairing suggestion based on the user's food choice input

**Audio/Visual Artist's Website** // [View Project](#) - [View Code](#)
