SUMMARY

I am a software engineer with a passion of caring for the needs of others and a love of all things tech. I want to see us all more happy, healthy, and full. I bring value to the workplace through empathy and a passion for innovation and development. I thrive when working with an innovative team, whose goals are to create technologies that advance humanity toward a more balanced yet productive society.

SKILLS

Frontend // Javascript, React, HTML, CSS, Sass
Backend // MongoDB, Node, Express, Ruby, Rails, Postgres, SQL

PROJECTS

Wine Pairing // *[View Project](#)* - *[View Code](#)*
- Utilized an API to auto-populate a wine-pairing suggestion based on the user's food choice input

Audio/Visual Artist's Website // *[View Project](#)* - *[View Code](#)*
- Constructed a full-stack MPA for an artist's music and paintings
